

CONNECTOR

Designed and made in New Zealand, Tru-Design Connectors are the superior composite connection for linking 2 hoses.

Tru-Design Connectors are moulded from a glass reinforced nylon composite. High strength, high-modulus glass fibres impregnated into the nylon provides dramatic strength, stiffness, toughness, and dimensional stability.

Tru-Design Connectors eliminate the corrosion and electrical bonding problems associated with metallic fittings. The Connectors are designed for twin hose clamps, and to not crush under high load conditions.

MODELS

Part #	Description
90245	Connector 13mm/13mm
90599	Connector 13mm/13mm PKG
90248	Connector 19mm/19mm
90600	Connector 19mm/19mm PKG
90257	Connector 25mm/25mm
90601	Connector 25mm/25mm PKG
90356	Connector 32mm/32mm
90602	Connector 32mm/32mm PKG
90290	Connector 38mm/38mm
90603	Connector 38mm/38mm PKG
90492	Connector 50mm/50mm
90604	Connector 50mm/50mm PKG

PKG product is supplied in bags with header cards

KEY FEATURES

Feature :	
Manufactured from a glass reinforced nylon composite	High strength and light weight.
Compatible with all hull types	Can be used on aluminum, steel, wood or FRP hulls.
Immune to corrosion and electrolysis	Long life with no concerns over decreased performance due to corrosion.
Chemical resistant	Impervious to diesel, petrol and antifouling paints.
UV resistant	These fittings will not break down with ultraviolet light or discolour from the sun.
High quality surface finish	Will not discolour with green film as similar bronze fittings do.
Large operating temperature range	Suitable for all marine environments, from -40°C to +110°C.

SPECIFICATIONS

FLOW DIAMETER

Size	Minimum I.D.
13mm	9mm
19mm	13mm
25mm	18mm
32mm	23mm
38mm	28mm
50mm	41mm

DIMENSIONS

All dimensions in mm.
All dimensions nominal.

INSTALLATION

Fit the hose using hot water to soften.

Apply twin hose clamps for a secure connection.

It is recommended that all plumbing is securely fastened to the boat structure to eliminate rattling, wear or inadvertent disconnection.

SERVICING

As composite Connectors are immune to corrosion, minimal servicing is required.

Hose clamps should be checked regularly for a secure connection.
